

# Introducing Multi-Pure's New H<sub>2</sub>O on the Go Bottle

## Multi-Pure's sustainable solution to Bottled Water H<sub>2</sub>O on the Go!

Multi-Pure's stainless steel 500 ml, 17 fl oz, reusable bottle is the go-anywhere solution to the waste of bottled water. Fill up your H<sub>2</sub>O on the Go with clean, clear, delicious Multi-Pure water and send the message to everybody that you're doing your part to fight the environmental nightmare that is bottled water.

Bottled water, sold in single-serving plastic bottles, is responsible for hundreds of tons of plastic waste, the release of hundreds of tons of carbon dioxide, and millions of gallons of crude oil used for the manufacture and transportation of the bottles.

Ideal for both hot and cold beverages, H<sub>2</sub>O on the Go's double-walled design will insulate your beverage, keeping it the right temperature. And H<sub>2</sub>O on the Go comes with a handy, and stylish carrying bag. You can help make the Earth a little bit greener with Multi-Pure's H<sub>2</sub>O on the Go!

Bottled Dimensions: 11" High; 2.75" Wide; 1.5" bottle opening  
Bottle Composition: Stainless Steel with Polypropylene Plastic Lid  
(not recommended for dishwasher use)
